Stronger Together: Pooled Employer Plans

Pooled Employer Plans are a special type of 401(k) plan that allow businesses to pool their purchasing power together to access better benefits, service, and rates with less in-house administrative overhead.

Pooled employer plans (PEPs) provide HUGE advantages to participating employers. Rather than sponsor your own 401(k) plan, you can become a participating employer of a much larger plan. As a bigger plan, PEPs can negotiate better prices and provide a broader array of services from expert retirement providers. Since you are not the plan sponsor, you are also able to reduce the administrative headaches and transfer much of the liability that comes with managing a retirement plan. But don't worry, you can still design your 401(k) plan to meet your company's specific objectives.

AN EXPERIENCED TEAM

When it comes to your 401(k) plan, experience matters. And our PEP team is the best available.

FiduciaryxChange leads the team providing their extensive retirement plan expertise and fiduciary oversight. Ameritas is a nationally recognized MEP expert, providing turn-key, full-service recordkeeping and TPA services.

Your team also includes an open architecture custodian and trading platform - giving you access to an extensive selection of investment options from top-tier fund families. The investment manager rounds out our team, bringing their exceptional investment experience to the table.

Combined, we have a ton of experience in the retirement plan space and will use that knowledge to deliver an exceptional 401(k) plan for you.

Pooled Plan Provider

As the Pooled Plan Provider (PPP), we oversee the plan and ensure that the plan provides an excellent benefit to your employees and a great value to you.

Investment Advisor

The Plan Investment Advisor selects and monitors the investment menu with the best interests of plan participants always in mind.

Custodian

The custodian holds plan assets and processes all trading instructions. Their open-architecture platform allows us access to an array of investment vehicles, including low-cost options, to help participants achieve their retirement goals.

Recordkeeper & TPA

As the third party administrator and recordkeeper for the plan, Ameritas performs all compliance testing, prepares government filing reports, and is responsible for all plan operations.

Division of Plan Responsibilities

By joining a PEP rather than sponsoring your own plan, you reduce your workload and your risks. As an adopting employer, your primary responsibilities are to make timely deposits to the plan and provide accurate information to your plan service providers.

We take care of everything else!

All the Flexibility You Want

Participating employers don't have to compromise. You can have all the advantages that come with being part of a pooled employer plan without sacrificing your ability to design a plan to meet your unique needs.

Plan Design Flexibility

Pooled Employer Plans can be flexible. But many providers will constrain the plan design options available because their systems can't handle the variety of choices. That's not the case with our PEP. Ameritas's experienced consultants will help you design their plan tailored to your specific objectives and needs.

Whether you are focused on helping your employees achieve financial security or are using your 401(k) plan to target benefits to select groups, we can help you accomplish your objectives.

Flexible Design Options

Your Plan

When you join our PEP, we will start with a plan design consult to better understand your company and your objectives. A good plan design can encourage participation and increase your employees' financial security.

A good plan design can also help to reduce administrative errors and make it easier for you and your payroll company to provide the information needed to run the plan well. That's why we'll provide some administrative guardrails to help keep your plan on track.

Your PEP Investment Options

Low Cost & Conflict Free

Your participants will have access to low-cost investment options from premier fund families. That's because our PEP is built on an open architecture platform with no proprietary fund requirements.

Plus, we aren't paid based on what options are in the plan - meaning that decisions are made solely in the best interests of plan participants. And since the PEP pools the assets of all the underlying adopting employers, you have access to share classes that are typically only available to much larger companies.

Investment Choice

The investment menu is also carefully designed to position your employees for success. The menu provides options within each of the main asset categories so participants can construct a diversified asset allocation appropriate for their situation.

The menu also includes popular target date and target risk funds so that even the least experienced participants can invest with confidence.

The Help They Need

In addition to a readiness assessment of your current strategy, every participant has access to **GuideME**, an online readiness engine that provides specific and personalized steps to get you on track. Work longer, or retire early? Live simpler, or go big? GuideME helps you choose the path that's right for you.
